#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 112***

Claim 9 STANDS rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 recites the limitation "cat litter", there is none in claim 1, nor in the specification @ page 6, as argued by applicant, but not supported with any MSDS or other documentation showing the claimed % of limestone & clay, as of the filing date of this application.

Claims 14-20 stand rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the stake & method of making, does not reasonably provide enablement for inhibiting any burrowing mammal. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims. There is no basis given & no objective data or evidence that the stake is "poisoned" & at all effective to "inhibit" as provided in the specification, otherwise undefined in the claims or specification, a burrowing animal. There is no basis for means to carry out crumbling of a hard concrete object as of claim 16, as supported in the specification.

Applicant's arguments of 12/29/06 are not persuasive; the prior art covers a number of areas, as requiring pest control utilizing a variety of mechanisms, as applicant points out, known in the spheres of burrowing animal control. However, "inhibiting" is not a clearly definitive term, & no evidence is presented or evident, that the invention would "inhibit" within any quantitative parameters of inhibition.

The rejection of claims 1-17 under first paragraph regarding prevention was in error & is withdrawn .

The arguments for allowability over the prior art are persuasive, plaster of Paris is known in the pest control arts, but combination with sulfur & castor oil is not obvious to add, & serves as a critical aspect of the instant invention.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
